

Rain EnGAUGE Event Evaluation

Date: _____

Location: _____

What will GPM tell us about the Earth? _____

How much of the Earth will GPM and it's constellation of satellites be able to observe? _____

| Before | How much did you know before this event and how much do you know now? | | After |
|--------|---|-----------------|-------|
| | 1 = nothing | 5 = a whole lot | |
| | The fact that NASA studies the Earth as well as space | | |
| | What GPM studies about the Earth | | |
| | How the GPM satellite collects data | | |
| | How the data from the GPM mission helps society | | |

If someone asked you about GPM, what would you tell them? _____

How likely are you to seek out more information about GPM and NASA missions? least 1 2 3 4 5 most

This evaluation will be sent to the GPM Education and Public Outreach Team to help improve our efforts to spread the word about our mission and Earth science at NASA. Please write any comments or suggestions for us (or the event organizers) on the back of this paper. Thank you!
